

# Tired of fragmented tools slowing you down?

Our physician-built Unified Communication Platform brings secure chat, voice, video, and EHR into one HIPAA-compliant hub—slashing response times by up to 87% so you can focus on patient care.

# Is paperwork eating up 30% of your shift?

IT'S TIME FOR A CHANGE.

Automate clinical workflows with context-aware AI  
alerts to reclaim 30% of your shift for patient care.

# 5 BENEFITS OF A UNIFIED COMMUNICATION PLATFORM FOR CLINICIANS

1

## Real-Time Collaboration

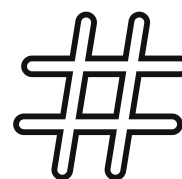

Instant, multimedia messaging—no more pager delays

2

## Workflow Automation

Auto-alerts & templates for labs, meds, follow-ups

3

## EHR Integration

One-tap access to labs, imaging, meds—no app-switching

4

## Context-Aware Alerts

Prioritized notifications by role & urgency

5

## HIPAA-Compliant Sync

End-to-end encryption & audit trails for total security

# DITCH DELAYS & PAPERWORK

see clinical communication transformed from

Before

After

Response Time

15–20 min via pagers &  
phone tag

< 2 min with secure in-  
app messaging

Admin Burden

40% of shift on  
paperwork

< 10% using automated  
task workflows

Information Flow

Fragmented & siloed  
across systems

Centralized feed with  
full audit trail

Care Coordination

Manual handoffs risk  
lost data

Real-time, context-rich  
team collaboration

Patient Safety

Higher risk of missed  
alerts

Proactive, AI-  
powered alert triage
